

Breezy Point - Sport Loop

Park at Breezy Point Picnic Area about one mile west of Mt. Rushmore N.M. located along Hwy. 244. This loop rides east from the parking area and lollipops back onto it self. The Sport Loop is about 5.5 miles in length and follows old two tracks, game trails, existing single tracks and a little newer single track trail. The ride is very scenic, offering up some very technical riding at times. There are over 40 granite slabs/rocks to ride over on this loop. The difficulty is similar to the Bone Collector.

1. Start off by riding east from the parking lot on a faint single track located across from the restrooms in the drive thru loop. Follow this single track downhill a short distance until you reach a small shelter built against the rock. At this point take the right fork of the single track up onto "The First Ridge". Follow the single track along the ridge and down over "The Ponderosa Pushup Rocks". Continue downhill to an old two track and veer right following the old road to the southwest.
2. After riding on the two track about 1/3 mile a single track switches back to the east towards the Wrinkled Rock Parking Area. Continue uphill on the single track.
3. Take a right on the first old rutted out two track road and ride a short distance uphill to the Wrinkled Rock P.A. Ride across the parking lot kind of kitty-corner (aiming for the southeast corner of the parking lot) and pickup a single track that starts between two large pine trees directly east of & across the parking lot from the restroom. Ride down some rock slabs trending right onto a faint single track.
4. Follow the contouring single track over to the "Wrinkled Rocks" then onto the "North Seas", followed by a single track diagonal crossing at the "Cross Roads".
5. A short distance past the "Cross Roads" another old two track will be encountered. Continue west on this two track about 50 yards then pickup a faint single track that veers right. Follow this single track up to "The Bus Stop Rocks", back up over "The Penthouse Pass" then down though "The Big Slabs". Continue following the single track over to "Scenic Point" then up over "Scenic Pass" and back down through "The Bird Droppings".
6. Now the mellow climb back up to Breezy Point begins, following more single track to the top of "Lost Arrow Pass" followed by some fun downhill through "The Multi Droppers". Continue on the single track until a fork is reached near a shelter just below Breezy Point. Take the right fork uphill a short distance back to Breezy Point.
